Rules:

- Prelims will be a written round where participants will solve puzzles and games on paper.
- The top eight teams will qualify for the finals.
- The format of the finals will be bounce-pounce. There will be 5 rounds, with each round having a different game and 6 questions in each round.
- Bounce/Pounce Format: Each question will be displayed on the screen, and all teams will have 30 seconds to come up with

an answer. If they do, they can pounce and immediately score points (+10 for correct, -5 for incorrect). After 30 seconds, the teams that did not pounce are given a chance to answer one by one. If they answer correctly, they get +5 points, but there is no negative marking. As soon as a team answers correctly in this phase, the QM moves onto the next question. I.e., only one team can correctly answer after the pounce phase.

- In the event of a dispute, the judge's verdict will be considered final.
- Using wordbooks, dictionaries, anagrams, etc., is not allowed. Using any smart device is not allowed during the event. Collaboration with other teams is not allowed.
